Bhopal, Date 02 / 3 /2016

Sub.: JERAD : Impact factor has raised to 4.301

Dear Sir/Madam,

It's a matter of pride and great satisfaction that journal JERAD has got an unprecedented Impact Factor of 4.301 for the year 2015. This is entirely based upon the International Citation Report (ICR) of the journal for last three years.

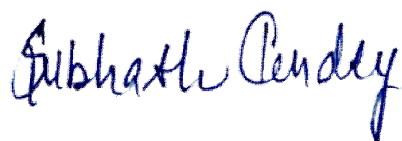

This year, we have obtained 2.667 (approx.) times greater than previous year's Impact Factor is indeed a remarkable achievement for whole JERAD family i.e Authors, Readers and Editorial Board of the Journal.

It is worth mentioning that as many as 206 indexing and abstracting agencies worldwide are evaluating the journal at present, details of which has been given on the website of JERAD. Apart from it, more than six agencies worldwide are also evaluating and providing Impact Factor for the journal.

In truth, we would like to give this incredible honor to our authors who have given their consistent contribution since last 11 years.

We shall be indebted to receive a line by way of your kind blessings for future endeavor of the journal and academic contribution as ever.

Thank you once again

(Professor Dr. Subhash C. Pandey)
